QUESTIONS ABOUT FOSTER CARE

Libby Berke is heading up the Foster Tip Line. If you have questions about situations with your foster cats (behaviors, not eating, etc.), Libby is very experienced and can offer some suggestions. You can text her at 248-935-3435 or email her at libbyberke@icloud.com. Additionally, YouTube Jackson Galaxy and The Kitten Lady are helpful for just about every situation involving cats/kittens.

If you have a medical issue, contact your mentor or text Nadi at 248-470-8587, Diane at 734-765-1950, or Gaby at 616-401-5156.

SUPPLIES

To order supplies, go to www.locrami.com, click on the '**Volunteers Only Page**' link in the bottom left corner, and then click on the '**Supply Order Form**' link. Pick up will be **SATURDAYS ONLY** 2-3:30pm at Sparebox Storage located at 46550 W Pontiac Trail, Walled Lake, MI 48390.

NAMING FOSTERS

When choosing a name for your foster cat/kitten, please check the '**Do Not Use Animal Name List**' in the '**Volunteers Only Page**'. It becomes very confusing when we have cats/kittens with duplicate names EVEN if they are spelled differently or a number added to the name. So choose a name NOT on this list.

MEDICATIONS

Please see the '**Foster-Given Medication Tracking**' in the '**Volunteers Only Page**'.

SPAYING/NEUTERING

Schedule spaying/neutering for kittens/cats by texting Nadi request a date, it will be a Wednesday. On the date you're given, take the kittens/cats to Nadi's house (14 Mile and M-5) by 6:30am. They will be taken to All About Animals from there. The next day (Thursday), you will need to be at Nadi's for pickup 8-8:30am. Please wait out from until you see that day's driver in Nadi's driveway.

READY FOR ADOPTION

When your foster cats have had all vaccines, dewormer, flea treatment, microchip, combo testing, and have been spayed/neutered, they are ready for adoption. Use the Kitten OR Cat Adoption Info Form link in the '**Volunteers Only Page**' on www.locrami.com. When writing a bio or taking photos to be used on our website please read and follow guidelines in the 'Adoption info (BIOS) for posting cats' documents in the '**Volunteers Only Page**'. Great pictures and a detailed bio are extremely important to help our kitties get adopted. A fellow volunteer will post them on the website within a few days. When a potential adopter inquires about the cat, a LOCRA Adopter Rep will interview them and decide if they are a good fit and will contact you for a meet and greet with the cat if they are approved.
